

SPRING PATIENT CATALOG

2023

Supporting every **body**, every **step**.

INTRODUCING THE NEW & IMPROVED

5TH AVENUE

BY FOOTLEVELERS

FULL BODY SUPPORT FOR YOUR HEELS

NEW 5th Avenue Collection changes you will love:

STREAMLINED

The 5th Avenue for 1" and 5th Avenue for 2" silhouettes have been slightly narrowed and shortened to the **NEW Dress Narrow**, for a better, low-profile fit while still providing maximum comfort, support and stabilization.

MORE COMFORTABLE

The thick layer of Propacel™ in the toe area has been replaced with the streamlined **VitaStep™ Comfort System** for both the 1" and 2" styles. This provides maximum support and comfort for a better fit in a greater assortment of women's shoes, including narrower ones with smaller toe boxes. The bottom cover has changed to a softer, more cushiony microfoam material.

SOFTER

The 5th Avenue Collection maintains the luxurious Lambson™ vegan leather top cover.

MORE SHOCK ABSORPTION

Because women need unique support in the heels, the 5th Avenue orthotics contain a Zorbacel® heel pad for extra shock absorption and comfort while maintaining proper support for a narrow fitting shoe.

DYNAMIC RESPONSE SYSTEM™

Dynamic Response System™ (DRS) is a standard feature for the 5th Avenue Collection. This springy material acts like a suspension system across your foot's arches and helps keep you stable by responding to variable loads and uneven terrain.

Custom-Made vs. Over-the-Counter Orthotics

Custom orthotics are far superior to generic or off-the-shelf inserts. They're custom-made to easily slide into your shoes and support the unique shape of your feet. Foot Levelers custom orthotics are unique because they support all three arches of the foot. By balancing the feet, Foot Levelers orthotics help reduce pain and improve performance throughout the body.

Your Feet are as Unique as Your **Fingerprints**

For Better Overall Health, You Need
Custom Orthotics **Made Just for You**

You wouldn't wear somebody else's eyeglasses. Why
would you wear orthotics that weren't made for you?

LET FOOT LEVELERS HELP YOU ACHIEVE YOUR BEST!

HIGHEST SHOCK ABSORPTION & PROPULSION

Unparalleled, stand alone orthotic offering

47% more shock absorption and 130% more propulsion than any of our orthotics.

DURABILITY

Proprietary & innovative fabric designed for enhanced durability.

FAR INFRARED TOP COVER

Far Infrared Rays (FIR) redirects the body's natural energy which can enhance muscle elasticity and performance, stimulate circulation, boost energy, and relieve muscle fatigue.

TEMPERATURE CONTROL

State-of-the-art materials regulate temperature to keep feet cooler, comfortable and odor-free.

FOOT LEVELERS

INMOTION+TM

SCIENCE MEETS PERFORMANCETM

What Orthotics Do For Your Body

Foot Levelers custom orthotics were developed to improve your posture and overall comfort level. When your feet are stabilized, the rest of your body is in balance. In addition to comfort, custom orthotics also help reduce low back pain, hip pain, and even neck pain. Learn more about each of these conditions and how Foot Levelers can help you live a pain-free lifestyle.

There are many possible reasons for **low back pain**, but spinal strain and postural fatigue account for about **70%** of cases not caused by more serious conditions.

LOW BACK PAIN

The sacroiliac (or SI) joints are the link between your spinal column and pelvis. They help absorb damaging shock forces, and they also help stabilize the body and transmit weight to the lower limbs.

SACROILIAC JOINT PAIN

There is no single cause for painful knee joints. But there are generally 2 types of contributing factors: traumatic and a condition that exists, which is chronic. Your doctor will help determine the cause of your knee pain.

KNEE PAIN

Leg length inequality (LLI) can cause pressure, stress, and pain in your knees, thighs, hips, pelvis, and spine.

SHORT LEG

What Orthotics Do For Your Feet

The pain you feel in your feet is debilitating and prevents you from living life to its fullest. Foot Levelers custom orthotics offer relief from some of the most common foot conditions, including plantar fasciitis and metatarsalgia. Foot Levelers orthotics are a great solution if you're experiencing foot pain.

When the foot's arches collapse, they no longer support the body properly. Pronated, or flat feet are also less shock-absorbent, creating extra stress on the bones, muscles, ligaments, and tendons of the entire body.

FLAT FEET

The plantar fascia is the soft, springy tissue on the underside of the foot. With injury, wear-and-tear, or age, a painful, ongoing condition may result: plantar fasciitis.

PLANTAR FASCIITIS

Metatarsalgia is pain in the ball of the foot. The soft, springy tissue beneath the foot is the support system for bones. With injury, wear-and-tear, or age, tissue deteriorates. Arches flatten, and toes may begin to crowd one another.

METATARSALGIA

If your ankle frequently "gives way" while walking or during activity, or if you've suffered from multiple sprains, you may have chronic ankle instability.

CHRONIC ANKLE INSTABILITY

What are others saying?

Dr. Kurt Juergens

“Foot Levelers, Inc knocked it out of the park...

...with the debut of their newest product, the InMotion+™ orthotic, and here is why! With the addition of the new InMotion+, Foot Levelers has produced a state-of-the-art orthotic, scientifically designed to maximize performance.

The new InMotion+ orthotic is revolutionary. Not only does it provide foundational support through its patented three arch support, but it includes technology and science that truly enhances performance, reduces impact and aids in recovery.”

Dr. Kurt A. Juergens, DC, CCSP

“As a long-time distance runner...

...I have tried many “over-the-counter”, “one-size-fits-all” inserts, but none of them compare to the InMotion+ custom orthotics that were handmade for my feet specifically.”

Jordan M.

“I was experiencing severe knee pain...

...and loss of function. After wearing Foot Levelers custom orthotics, my pain has been almost completely removed and I can squat again with no pain or loss of strength!”

Shane F.

Support to match EVERY lifestyle.

Mild activity

Moderate activity

Extreme activity

DIFFERENT ***SHOES*** REQUIRE
DIFFERENT ***CUSTOM ORTHOTICS***

Match orthotics to the footwear styles you wear frequently, from dress to athletic and casual shoes.

Multiple pairs ensure maximum comfort and performance from morning through night.

What Does It All Mean?

This product guide uses an icon system to call out the features for each orthotic. Please match the feature icons with those on the orthotic listings.

ZORBACEL®

Absorbs damaging shock at heel strike.

STANCEGUARD™

Provides variable firmness, flexibility and control at midstance.

PROPACEL™

Provides a propulsive boost at toe-off, helping to reduce fatigue.

MAGNET SYSTEM

***Contains magnets.** Do not use if you are wearing a pacemaker or electrical implant of any kind, or if you are pregnant.

MOISTURE WICKING

Helps absorb moisture and perspiration to control odor and increase comfort

WATERPROOF

These products are better able to stand up to moisture and are recommended for patients who live or work in wet and humid environments.

MPAX TECHNOLOGY

Proprietary, state-of-the-art material is soft, breathable and flexible at rest, but instantly absorbs up to 90% of energy upon impact.

MPAX PRO

Innovative mid-layer material, infused with dynamic foam technology to reduce and redirect shock away from the foot, maximizes rebound for increased stride distance and to save energy at toe-off.

FAR INFRARED TECHNOLOGY (FIR)

Redirects energy back into the body to enhance muscle elasticity and performance, stimulate circulation, boost energy and relieve muscle fatigue.

GAIT CYCLE SYSTEM® (GCS)

Only available from Foot Levelers, the GCS is a system comprised of Zorbacel® for shock absorption at heel strike, Stanceguard™ for variable support at midstance, and Propacel™ for a propulsive boost at toe off.

GAIT CYCLE SYSTEM EXTREME® (GCS-X)

Maximum support and protection from heel strike to toe-off with additional Zorbacel® and Propacel™ layers.

DYNAMIC RESPONSE SYSTEM™ (DRS)

Proprietary arch material acts like a suspension system and enhances stability in all 3 arches by responding to variable loads and uneven terrain.

DYNAMIC RESPONSE SYSTEM EXTREME™ (DRS-X)

The benefits of DRS plus additional shock absorption in the heel provides greater comfort, better protection and improved performance.

Choose Shoe Style

We have a selection of Stabilizing Orthotics designed for every shoe type.

Shoes with removable inserts

Full length orthotics offer support in shoes with laces where the factory lining can be removed.

Shoes with narrow toe box

Dress length orthotics are ideal for shoes where the toe box is narrow and cannot accommodate a full length orthotic due to the width or for shoes without a removable liner.

Flats and 1" heels

The 5th Avenue 1" Dress Narrow length is specifically designed for heels 1" or less.

Heels between 1" and 2"

The 5th Avenue 2" Dress Narrow length is designed for heels between 1" and 2".

FOOT LEVELERS

INMOTION+

SCIENCE MEETS PERFORMANCE™

Proprietary & innovative fabric designed for enhanced durability.

Far-infrared (FIR) rays redirects the body's natural energy back to the body which can enhance muscle elasticity and performance, stimulate circulation, boost energy, and relieve muscle fatigue.

Unparalleled, stand alone orthotic offering 47% more shock absorption and 130% more propulsion.

State-of-the-art materials regulate temperature to keep feet cooler, comfortable and odor-free.

ITEM 0910501X

inmotion

by Foot Levelers®

Proprietary materials to control odor and bacteria

Moisture-wicking Dri-Brell® top cover keeps feet cool and comfortable

High-performance features help improve performance and recovery

ITEM 0910500X

OUR MOST FLEXIBLE CUSTOM ORTHOTIC

Lightweight materials for maximum performance

Perforated top

Perfect for extreme endurance athletes like marathon runners, triathletes, and more

MPAX® for extreme shock absorption to reduce pain

MPAX Pro® provides a propulsive boost at toe-off to help increase endurance

ITEM 0913103

OUR LIGHTEST AND THINNEST CUSTOM ORTHOTIC

Perfect for cleats, spikes, minimal running shoes, ice skates, ski boots, and more

Perforated top

MPAX® for shock absorption to reduce pain from heel strike

53.2% lighter than any other orthotic, perfect for tight-fitting athletic shoes

ITEM 0913101

EXTREME

Maximum Cushioning

Extreme includes maximum support, comfort and durability. Extreme comes standard with the Dynamic Response System™ for shock absorption and the Gait Cycle System Extreme® for maximum protection throughout the gait cycle.

DRS creates stability, absorbs shock and responds to the body's movement in all 3 arches.

Zorbacel®

75% more Zorbacel for shock absorption at heel strike.

StanceGuard™

Provides weight-bearing support at mid-stance.

Propacel™

50% more Propacel for propulsion at toe-off.

Orthotic shown with Active Top

EXTREME ACTIVE

Recommended for:

- » Patients with sweaty feet
- » Patients who live very active lifestyles
- » Moisture-wicking Dri-Brell®

ITEM 0912501

EXTREME LUXURY

Recommended for:

- » Business professionals who stand most of the day
- » Patients who like the feel of luxury under their feet
- » Vegan Lambson Leather™ provides durability with a softer side

ITEM 0912500

EXTREME COMFORT

Recommended for:

- » Patients who need extreme comfort
- » Patients who stand on hard surfaces for extended periods of time
- » TechCel™ material for patients who need maximum cushioning (especially those with sensitive feet)

ITEM 0912502

EXTREME TOUGH

Recommended for:

- » Patients who put an excessive amount of wear and tear on their orthotics/shoes
- » Patients who have extra weight and need more shock absorption
- » Genuine leather top cover

ITEM 0912503

Designed for Light/Moderate Activity

Ultra Stabilizing Orthotics are designed with a thinner profile for light/moderately active patients and include the Gait Cycle System® for protection from heel strike to toe-off.

Zorbacel®

For shock absorption at heel strike.

StanceGuard™

Provides weight bearing support at midstance.

Propacel™

For propulsion at toe-off.

Orthotic shown with Active Top

ULTRA ACTIVE

Recommended for:

- » Patients who do light activity
- » Patients with sweaty feet
- » Moisture-wicking Dri-Brell®

ITEM 0912601

ULTRA LUXURY

• Recommended for:

- » Patients who need a thinner profile for casual shoe styles
- » Patients who prefer leather top cover

ITEM 0912600

ULTRA COMFORT

Recommended for:

- » Patients who need extra comfort
- » Patients who stand on hard surfaces
- » Patients with sensitive feet

ITEM 0912602

ULTRA TOUGH

Recommended for:

- » Patients who are hard on their shoes and who need a more durable product

ITEM 0912603

ELITE COMFORT

Provides elite **comfort** and **softness** with an extra layer of cushion.

Mid-Layer

Soft and cushiony for added comfort

Great for shoes with deep counters.

MPAX®

For shock absorption at heel strike.

StanceGuard™

Provides weight bearing support at midstance.

Propacel™

For propulsion at toe-off.

ITEM 0912911

May **enhance your energy**, edge and performance.

The Elite Energy Magnet System is strategically placed to help stimulate certain acupressure points that may decrease pain and increase circulation.

Lambson leather™ top cover

***Contains magnets.** Do not use if you are wearing a pacemaker or electrical implant of any kind, or if you are pregnant.

ITEM 0910300

Increases club head velocity 3-5 mph¹

Helps wearer hit golf ball 9-15 yards farther¹

Helps improve your body's alignment & reduces fatigue

Great for All Golfers!

***Contains magnets.** Do not use if you are wearing a pacemaker or electrical implant of any kind, or if you are pregnant.

ITEM 0910701

AQUAGUARD™

Great for harsh environments

Durable top cover is resistant to all types of moisture

The best orthotic for activity around water

SafetySole bottom resists wetness and provides a thermal and static barrier.

ITEM 0910700

Ultra YOUNG SOLES

Exclusively for
AGES 5-12

May help alleviate
growing pains

Helps establish healthy
posture as kids grow

Helps with stability and
support during sports
or play

Available with our Pos-
ture Protect Program™*

Note: For children under 9 years of age, Foot Levelers may provide reduced corrections in the prescription.

ITEM 0910702

The Mother Nurture™ Custom Orthotics System

by Foot Levelers

3-Part System
ITEM 0912804

Custom **3-pair orthotic system** for these crucial stages of pregnancy

One cast/scan does it all:

- 1 pair of custom orthotics for **Trimester 2**
- 1 pair of custom orthotics for **Trimester 3**
- 1 pair of custom orthotics for **Postpartum** (the year after baby's birth)
- 1 Bonus Foot Roller (for orthotic break-in and general pain relief)

WINNING COMBINATIONS

YOUR LIFESTYLES | YOUR NEEDS

Different footwear requires different orthotics to keep you supported and feeling your best. With that in mind, we created winning combinations for your ease and convenience. Designed for your busy lifestyle, these combinations remove the hassle of switching orthotics between the shoes you wear throughout the day, so you always have the right support for your favorite footwear.

ACTIVE LIFESTYLE

XP3 & InMotion®

ITEM BND0020

- » **XP3** is our lightest and thinnest orthotic, great for tight-fitting shoes
- » **InMotion** is great for every activity and includes elements for odor and moisture control

This ultimate combination of custom orthotics for the athlete or weekend warrior. Excellent for athletic shoes or today's modern fit casual shoes, perfect for the on-the-go lifestyle.

MAXIMUM DURABILITY

Extreme Tough & Ultra Luxury

- » **Extreme Tough** has a durable top cover that can withstand extreme conditions
- » **Ultra-Luxury's** thinner profile fits into many casual shoe styles

This is an ideal combination for those who are hard on their shoes or are in harsh environments but need all day cushioning. Keep one pair in your work shoes and another in your casual shoes.

ITEM BND0050

EVERYDAY LIVING

InMotion+™ Full Length & Dress Luxury

- » **InMotion+™** with maximum shock absorption, propulsion, and stability; great for an athletic shoe
- » **Dress Luxury** offering a leather top for durability and comfort; great for an office shoe

Optimized for comfort and support through a variety of daily activities. Our most versatile combination with a full length orthotic for athletic and casual shoes and a ¾ length for dress and tighter fitting casual shoes.

ITEM BND0010

ALL DAY COMFORT

Minnetonka Slipperthotic & Extreme Comfort

ITEM BND0040 MEN
ITEM BND0030 WOMEN

- » **Minnetonka** provides the comforts of home even when you are on-the-go with a custom orthotic designed for you.
- » **Extreme Comfort** eases pain caused during high levels of activity and offers premium comfort and protection; great for a shoe with a wider toe box (i.e., lace up athletic shoe)

An excellent combination for anyone who needs maximum cushion but wants to kick their shoes off at the end of the day and walk around in a slipper like house shoe. Perfect for anyone with sore feet, especially those who stand in one place all day or have arthritis or diabetes.

EVERYDAY SUPPORT FOR HEELS

5th Avenue for 1" and 2"

- » **5th Avenue for 1"** made for flats and lower-heeled shoes, streamlined silhouette created for narrower, lower profile shoes
- » **5th Avenue for 2"** designed to keep the feet aligned and body balanced while wearing heels from 1" to 2". Fits easily and discreetly in high-fashion dress shoes and sandals.

Ideal for women and anyone who wants to feel great and keep their body stabilized in narrow-fitting, low-profile and higher-heeled shoes. This combination includes both 5th Avenue styles, providing convenient support for a wide range of shoe types and heel heights.

Good Enough?

When it comes to your health, “good enough”
may be anything but.

- ✗ Generic orthotics typically only support one arch and may not maintain the structure of the plantar vault. This can create problems in other parts of the body, such as painful stress in the low back and neck.
- ✓ Foot Levelers custom-made orthotics, however, are built with the **3 Arch Advantage™** and help support the finer points of the body by correcting all three arches.

By addressing all three arches, our orthotics help **reduce pain** throughout the Kinetic Chain and improve **balance, proprioception and physical performance.**

When the foot hits the ground, everything changes.®

5 REASONS

TO USE FOOT LEVELERS CUSTOM ORTHOTICS

1

Easy, proven conservative care.

Foot Levelers orthotics are proven to reduce Low Back Pain by 34.5%.¹ Low back pain is the #1 cause for missed work, and is a leading cause of the current opioid crisis.

2

Create a Symmetrical Foundation

The feet are the body's foundation. Foot dysfunction can cause problems throughout the rest of the body.

3

Dynamic Function

Your balance and the way you walk are improved by wearing Foot Levelers orthotics.

4

Improved Performance

Studies show Foot Levelers orthotics help increase drive distance on the golf course and reduce pain in those who stand all day.²

5

Heel Strike Shock Reduction

Innovative materials absorb shock, which helps reduce pain and discomfort caused by heel strike while walking.
